UCSF Land Acknowledgment

We would like to acknowledge the Ramaytush Ohlone people, who are the traditional custodians of this land. We pay our respects to the Ramaytush Ohlone elders, past, present, and future, who call this place, the land that UCSF sits upon, their home. We are proud to continue their tradition of coming together and growing as a community. We thank the Ramaytush Ohlone community for their stewardship and support, and we look forward to strengthening our ties as we continue our relationship of mutual respect and understanding.

Pillar 4: Achieve demographic diversity in leadership

UCSF is committed to reflecting the diversity of California’s population across all levels of our staff by working to recruit and retain diverse employees, particularly those who have been systematically and historically underrepresented in leadership positions.

To advance these efforts, the Office of Diversity and Outreach, in partnership with Human Resources, has implemented a UCSF-wide process improvement to disrupt unconscious bias present in our hiring and promotions processes.

This includes data-driven best practices, standardized work for hiring senior staff and leadership positions (Manager 2 and above).

Gender Recognition and Lived Name Policy

Presenter:
Klint Jaramillo, MEd, MSW
Pronouns: he, him, his, él
Director, LGBT Resource Center
UC Gender Recognition and Lived Name Policy

- Ensures that all individuals are identified by their accurate gender identity and lived name on university-issued documents and information systems
- Creates supportive, inclusive, and respectful environment for everyone in the UC community
- Applies to everyone who enters in a relationship with the university:
  - Students, staff, trainees, faculty, patients, and research subjects
  - All campuses, locations, laboratories, medical centers and health systems, as well as satellite offices, affiliates and other units controlled by the Regents of the University of California
UC Gender Recognition and Lived Name Policy

What the policy says: Gender recognition

- The University of California must provide the minimum of three equally recognized gender options in university-issued documents and IT resource systems:
  - Woman
  - Man
  - Nonbinary

- Creates an efficient process for current students, employees, and UC alumni and affiliates to update/change and retroactively amend their gender designations
UC Gender Recognition and Lived Name Policy

What the policy says: Lived names

- Allows for a lived name (preferred name) to be used in all settings and situations that do not require a person’s legal name
- Lived names can be first, middle, and/or last name or surname
- Legal names must be kept confidential and must not be published on documents or displayed in IT Resource systems, unless it is the same as the lived name
- Processes must be developed to easily change and update names
- Access to legal name will be restricted based on guidelines
Implementation Plan

- Significant **UCPath** implementation delay has extended implementation to **June 2024** for all associated downstream systems at locations

- Full implementation of policy and procedures should be completed no later than **December 31, 2023** for **all other systems**

- UCSF has convened a group of experts to assess all systems and processes to determine needed changes and create an implementation plan that includes awareness, education, and change management

- For questions about this policy and the UCSF implementation initiative, contact:
